Housing information on our website:

FIND A GUARANTOR

Most accommodation will require you to have a GUARANTOR.

A guarantor is a third party who can take over your rent in the event of non-payment. This person must therefore have sufficient income to cover his/her personal expenses and your rent. The guarantor must have a proven income in France.

For international student, the landlord may require you to subscribe either GARANTME (payant) or VISALE (free of charge) organization.

These organizations will act as your guarantor.

Process with Garantme (paying organization):

- Step 1: You must register and apply for an eligibility certificate (free of charge). This document is required by the student residences.
- Step 2: Once your reservation is confirmed, pay Garantme organization and get “the guarantor certificate”.

HOUSING INSURANCE

It's MANDATORY to insure your home. You will be insured against damage such as a fire or water damage and you will also have the liability insurance.

You have to prove your housing insurance before to sign the rent contract. To find the housing insurance you can check on the internet. Most of student residences have partnerships with insurance companies.

Make sure that the "Civil Liability" is included in the Home Insurance (This document is requested for administrative registration at the IUT).

CHECK-IN // CHECK-OUT

Check in: You will do an "Etat des lieux" (condition of the premises). Together, with the landlord you will inspect every room and record your observation in this document. This very important step ensures that you and your landlord are in a agreement about the condition of your unit at the time you take possession of it.

Check out: Same process will be repeated when you will leave your apartment to discover wheter any damage occurred during your tenancy.

Please note that when you will decide to leave your lodging, you must notify your landlord in advance (generally a month in advance).

Most of student residence DO NOT PROVIDE bath and bed linen
